A&I Slatless Feederhouse Chain

An economical repair solution from A&I Products for worn feederhouse chain when the original cast slats are still in great shape.

Page 23

Don takes pride in getting his hands dirty.

Like the farmers he serves, Don understands the meaning of a hard day's work. So do the experts at your John Deere dealer who can get you field ready with **offseason planter and tractor inspections**.

You can count on the best-trained technicians in the industry to test your meters and replace worn planter components to ensure correct population and accurate spacing for uniform emergence. And when it comes to your tractor, we'll identify and replace failing parts to prevent disastrous downtime in the narrow planting window – all while staying within your budget with Genuine John Deere, Reman and A&I parts. Plus, Genuine John Deere ag parts now carry a 12-month warranty including labor.*

Schedule your offseason planter and tractor inspections today at your local John Deere dealer with an expert like Don.

JOHN DEERE

JohnDeere.com

*12 month/unlimited hour warranty on new agricultural parts installed by an authorized John Deere Dealer. See John Deere Service Repair & Parts Warranty for details at JohnDeere.com/PartsWarranty.

JOHN DEERE
FINANCIAL

Multi-Use Account

PARTS ARE JUST PART OF THE PICTURE.

No matter what kind of operation you run, you don't have time for downtime. Whether you need to buy parts for regular service maintenance or have your equipment inspected during the off-season, you can put it all on one account. Ask your local John Deere Dealer about the exclusive money saving No-Payments/No-Interest programs available when using your **Multi-Use Account** from John Deere Financial.

JOHN DEERE

CONFIDENCE

IT'S WHAT WE **IMPART** IN YOU

THE JOHN DEERE DIFFERENCE

- Right Part for Any Budget
- Highly Trained Expert Technicians
- 12 Months Parts & Labor Warranty*
- Short & Long Term Financing Options**

Your operation and needs are unique. That's why your John Deere dealer makes sure to put the **right people** behind the parts counter. People who know the ins and outs of your machine and understand that each John Deere owner is different. Knowledgeable and trained, they can guide you to the **right part** to fit your budget. So, when you walk out the door, you can **feel confident** you've made the right decision.

*12 month/unlimited hour warranty on most new John Deere agricultural parts when installed by an authorized John Deere Dealer. 6 month/unlimited hour warranty for most new John Deere agricultural and turf equipment parts. See John Deere Service Parts Warranty US & Canada and participating dealers for more details. Most A&I/Sunbelt parts carry a 1-year warranty. Some exclusions apply. See your participating A&I re-seller or John Deere Dealer for more details.

**Financing on approved John Deere Financial credit only. Contact your Multi-Use Account merchant or dealer for complete details.

What's New for 2021 Harvest

John Deere Chopping Stalk Rolls

A new chopping stalk roll featuring 10 intermeshing knives is now available. Able to size most stalk residue to less than 6", the chopping stalk roll leaves residue on top of the row while exploding stalk tops for reduced tire and track wear.

[See Pages 8 and 9](#)

John Deere Stalk Deflector

Today's tough corn hybrids can be damaging to combine and other tires and tracks. John Deere-designed stalk deflectors sit behind each row or just in front of the combine tires and fracture corn stubble by pushing it down toward the ground.

[See Page 8](#)

A&I Products Slatless Feederhouse Chain

A&I Products slatless feederhouse chain is an economical repair option for worn out chain when the original cast slats are still in great shape. A separate bolt kit is available for easy installation.

[See Page 23](#)

Kondex Revolution Concaves

For tough harvesting conditions and producers that may be swapping out concaves more than desired, the Kondex Revolution concaves will make life easier. These concaves have a versatile design that are built to thresh in changing crop conditions.

[See Page 26](#)

A&I Products Half-Width Concaves

These new concaves enhance the portfolio offered from John Deere and A&I Products. Half-Width concaves are available in Large Wire, Small Wire, and Round Bar. The half-width concaves are light weight for easy installation during crop change over.

[See Dealer for Details](#)

A&I Products LED Light Kits

A&I Products offers a wide variety of LED light kits for combines. One simple kit includes all front headlights located on top of the cab. These A&I LED lights are direct fit and plug into the existing machine wiring harness. Available for 9000–9070 series combines

Corn Head Parts

Gathering Chains

Features of Genuine John Deere Chains:

- The face of each flight is extended down to create a lip between sidebars—this prevents debris from collecting at the roller and reduces wear on the chain and sprockets
- The flight face slants at a 15-degree angle away from roller chains to create a self-cleaning effect as the flight moves ears towards the auger
- Chains are coated with a rust-preventative chain lubricant

RETOOL WITH ROWMAX

STALK DEFLECTOR

CHAIN KIT

STALK ROLLS (2)

Why trade when you can upgrade with RowMax. Our performance upgrade extends the life of the row unit on your John Deere 600C/FC or 700C/FC cornhead (MY12 or newer). Along with an **advanced gathering chain** that features 12 additional links, two more sprocket teeth and upgraded alloy bushings, RowMax now has an **all-new stalk deflector** manufactured with ¼ in. abrasion-resistant steel. Plus, you get your choice of stalk rolls: straight fluted, opposed knife, intermeshing knife or **chopping stalk roll**.

GIVE YOURSELF A CUTTING EDGE

John Deere's innovative lineup of stalk rolls is now better than ever with the new **CHOPPING STALK ROLLS**. Featuring 10 intermeshing knives, these rolls size most residue 6 inches or less. Plus, they explode the top of the stalk for reduced tire and track wear and drop residue right on top of the row for improved planter performance in no-till or strip-till operations.

Along with the chopping stalk roll, John Deere offers other uniquely engineered solutions to meet the residue processing needs of your **600/700 SERIES CORN HEAD**.

- 1 STRAIGHT FLUTED STALK ROLLS**
for slow residue breakdown
- 2 OPPOSED KNIFE ROLLS**
for moderate stalk processing
- 3 INTERMESHING KNIFE ROLLS**
for aggressive stalk processing
- 4 CHOPPING STALK ROLLS**
for highly aggressive stalk processing

Shoe Cover

John Deere has improved the composite shoe cover with an embedded reflective strip in the top of the cover, and simplified the installation to just snap on over the existing cast point, eliminating the need to remove the bolt.

NUMBER	DESCRIPTION	LIST	NOW
H207895	Shoe Cover	\$25.95	\$24.39

High Moisture Kits

To minimize the chance of kernel damage when harvesting high-moisture corn (greater than 25 percent moisture), an insert can be installed in the auger floor that will close the gap between the floor and the auger flighting. While not required for use with the insert, a second kit can be installed that provides a lower auger position to further enhance grain quality.

NUMBER	DESCRIPTION	TYPE	LIST	NOW

Platform Parts

Innovative Engineering

John Deere sickle sections are engineered for maximum performance.

- The tapered tip and consistent serrations maintain sharpness
- The anti-buildup zone reduces clogging and increases capacity
- The innovative breakage zone allows the section to break, rather than bend, without damaging guards—all while reducing overall cutterbar weight
- Austempering heat treatment gives the entire section strength and balanced wear

Sections

Fine-Tooth Sections – Recommended for small grains.

Coarse-Tooth Sections – Recommended for green-stemmed crops like soybeans.

No-Till Sections – Recommended in no-till conditions to prevent corn stalks from pinching.

Don't discount your guards

Only replacing your knives is like sharpening one side of your scissors. A dull edge on your guards can sacrifice cut quality and potentially force you to run slower...costing acres per hour.

John Deere offers green, high-wear guards that come standard from the factory. These guards go through an added boronization process that gives them twice the wear life compared with the standard black guards. If your conditions don't require that added wear life, the standard, black guards are case hardened all the way around. This provides a longer wear life compared to some aftermarket guards that are only induction hardened at the corners of the cutting edge.

Make sure you're using the right cutting system for your primary crop.

- Long-point guards and fine tooth sections – small grains
- Blunt-point guards and coarse-tooth sections – soybeans
- No-till sections and guards – to help prevent corn stalks from hairpinning

Auger Fingers Kits

As crop material moves to the center of the platform, auger fingers, finger bearings, and finger guides deliver material to the feeder house. The fingers and bearings should be checked periodically and replaced if there is excessive play. John Deere offers two different types of auger fingers:

Steel Fingers

- John Deere fingers are made out of boron steel and heat-treated for long wear
- A narrow, breakaway groove in the finger protects it and allows the finger to break, rather than bend, to prevent damage to the auger

Composite Fingers

- John Deere composite fingers are known for their strength and resiliency in most crop conditions
- Reduce damage from broken fingers

Rasp Bars

John Deere Black-Hardened Rasp Bars

- Serrated rasp bar has a gently contoured surface design that wears to an even, smooth profile
- Recommended for use in harvesting corn, popcorn, soybeans, malting barley, edible beans, or any seed crop where high quality grain is demanded

John Deere Chrome-Hardened Rasp Bars

- Provide twice the wear life of the non-chromed rasp bars
- Feature a smooth, contoured profile design with sharp surface edges
- Ideal for general use in all crops where long-lasting, efficient threshing performance is desired

Clean Grain and Tailings Elevator Chains

Elevator chains should be checked for stretch and adjusted or replaced as required. The rubber paddles can develop rounded corners and edges, resulting in grain leakage. The most common reason for excessive elevator chain wear is too much tension. A chain that has too much tension will get tighter as the chain conveys material and could cause shaft and bearing failures.

STS- and S-Series Combine Parts

STS- and S-Series Combine Batteries

StrongBox™ Original Equipment batteries are built tough to meet demanding John Deere factory specifications. No other brand compares with the high-quality construction and internal and external components. For a more economical alternative, our StrongBox™ Standard-Duty batteries can offer a great solution in lighter-use applications.

STS- and S-Series Feederhouse Chain

Excessive tension is a major cause of feederhouse conveyor chain wear. It is normal for center strands to sag more because of the weight of the slat and the upward force of crop material.

STS- and S-Series Threshing Elements

It is important to note that three different threshing element designs are needed for the Bullet Rotor:

- First Row of Front Cone: Requires one kit of (3) threshing elements designed for mounting on the front surface of the front cone.
- Second Row of Front Cone: Requires one kit of (3) threshing elements designed for mounting on the surface of the mid-section of the front cone.
- Rear Portion: Requires three kits of (3) threshing elements designed to mount on the rear portion of the rotor.

All threshing elements listed below are available in kits of (3) only. To maintain rotor balance, all three must be installed in a row around the circumference

How To Select The Right Concave

With the correct concave configuration, you can enhance combine performance in a wide variety of crops and conditions. Use the concave guidelines below to determine how you can increase the threshing capacity of your **John Deere STS or S Series combine**. For specialty and seed crops, always use the best-rated concave configuration.

CROP TYPE	CORN	SOYBEANS	SMALL GRAINS (WHEAT, BARLEY)	RICE
SMALL WIRE	NOT RECOMMENDED	NOT RECOMMENDED	BEST ^(4,5)	NOT RECOMMENDED
LARGE WIRE	GOOD ⁽¹⁾	GOOD	GOOD ⁽⁴⁾	BEST
ROUND BAR	BEST	BEST ^(2,6)	AVERAGE ⁽³⁾	NOT RECOMMENDED

CROP TYPE	POPCORN, FOOD CORN	MILO/SORGHUM, SUNFLOWERS (CONFECTION)	SUNFLOWERS (OIL)	CANOLA
SMALL WIRE	NOT RECOMMENDED	NOT RECOMMENDED	NOT RECOMMENDED	BEST ⁴
LARGE WIRE	NOT RECOMMENDED	BEST	BEST	NOT RECOMMENDED
ROUND BAR	BEST	AVERAGE ⁽²⁾	AVERAGE ⁽²⁾	AVERAGE

1. Large-wire concaves are not recommended for corn with moisture above 25 percent. Matting of green, leafy material significantly reduces separating capacity.
2. Optional threshing inserts are available to improve threshing ability in tough threshing varieties or conditions.
3. Optional concave threshing inserts are required in the first concave to improve threshing ability. Tough threshing conditions may require additional threshing inserts in the second and third concave sections.

4. Optional concave cover plates are available to improve threshing ability and sample cleanliness (white caps, snapped heads, unthreshed pods). Recommended for tough, damp, hard-to-thresh conditions only. Removal of every other wire is recommended for best grain quality results.
5. Optional Kondex® MaxThresh™ Concave in the first section to improve threshing.
6. Optional Kondex® MaxRound™ Concave in the first section to improve threshing.

See following two pages for parts numbers and pricing.

THRESHING INSERTS

KONDEX® MAXTHRESH™ CONCAVE

KONDEX® MAXROUND™ CONCAVE

STS- and S-Series Concave Inserts

Concave inserts provide the additional threshing action required for harvesting small grains with the round bar concaves. Concave inserts are easy to install and remove as you switch between crops.

NUMBER	DESCRIPTION	TYPE	LIST	NOW
Concave Inserts (9560, 9570, S550):

*Not available for 9560 STS, 9570, or S550 Combines.

Concave Cover Plates

The sectionalized concave covers help to provide additional threshing in the concave area when harvesting hard-to-thresh-type cereal crops. They can also help to reduce white caps and increase grain tank cleanliness.

NUMBER	DESCRIPTION	LIST	NOW
BH84534	Small Wire and Large Wire Covers	\$662.20	\$622.47
BH84535	Round Bar Covers	\$124.30	\$116.84

Separator Grate Covers

Separator grate covers are used to reduce chaff load and alter distribution of material to cleaning shoe. Up to 20 covers may be used. Covers are recommended in small grains but should not be used during corn harvest. Part numbers BXE10645 (Standard Grate) or BXE10646 (HD Grate).

NUMBER	DESCRIPTION	LIST	NOW
BXE10645	Covers (Set of 4)	\$152.90	\$143.73
BXE10646	HD Covers (Set of 20)	\$152.90	\$143.73

Heavy Duty Separator Grates with Interrupters

The HD separator grate is a welded separator grate while the standard separator grates are single-piece casted steel. HD separator grates are stiffer and more robust than the standard separator grates for increased performance in tough threshing crops like tough straw and green stemmed beans.

NUMBER	DESCRIPTION	LIST	NOW
AXE44522	HD Grate	\$2,057.93	\$1,934.45

STS- and S-Series Elevator Chains

Elevator chains should be checked for stretch and adjusted or replaced as required. The rubber paddles can develop rounded corners and edges, resulting in grain leakage.

NUMBER	DESCRIPTION	TYPE	LIST	NOW
Clean Grain Elevator Chain:				
AXE28559	9650, 9750, 9560, 9660, 9760, 9860, 9570, 9670, S550, S650, S660	John Deere	\$444.34	\$417.68

AXE16681	S690	John Deere	\$968.23	\$910.14
Tailings Elevator Chain:				
AH148021	9650, 9750, 9560, 9660, 9760, 9860, 9570, 9670, 9770, 9870, S550, S650, S660, S670	John Deere	\$225.08	\$211.58
A-AH148021	9650, 9750, 9560, 9660, 9760, 9860, 9570, 9670, 9770, 9870, S550, S650, S660, S670	A&I Products	\$186.95	
AXE10556	S680 (-785000), S690 (-785000)	John Deere	\$324.93	\$305.43
AXE47615	S680 (785001-), S690 (785001-)	John Deere	\$282.00	\$265.08

Tech Tip:

The most common reason for excessive elevator chain wear is too much tension. A chain that has too much tension will get tighter as the chain conveys material and could cause shaft and bearing failures.

STS- and S-Series Shoe Grain Supply Augers

Make sure the cleaning shoe auger gears are properly adjusted to prevent excessive wear. Once the gears touch, back off the clamp 0.8 mm (1/32-in.). Do not run the gears too tight.

STS- and S-Series Straw Chopper Knives

John Deere 70- and S-Series combines use a unique wing blade. The wing blade design moves more air, providing an even spread of material across the entire width of the cutting platform.

The cutting edge of the wing blade is made of wear-resistant material that extends wear life.

Chopper balance must be maintained. Follow operator manual to ensure proper blades are replaced. Depending on type of chopper, either 6 or 8 blades must be replaced to keep balance.

It's what's on the inside that counts.

From the outside, aftermarket belts may look just the same, but the value of a belt is mostly found on the inside. The top section of a belt is the tension section that stretches as the belt forms around the sheave or pulley while the bottom section compresses around it.

The center section is where a belt gets its strength. Perfectly aligned cords running through the center of John Deere belts give them strength and longevity.

For more information and aftermarket comparison, visit JohnDeere.com/CombineParts.

Heated Floor Mat

Keep your feet warm with this heated floor mat. The floor mat conducts heat directly over your feet from an internal heating element.

Features:

- Lays over top of existing floor mat
- Same material and color as existing floor mat
- Plugs into auxiliary power strip

Sidehill Performance Kits

The side hill performance package can improve combine performance on slopes up to 8 degrees (14 percent) by substantially reducing cleaning shoe grain loss to acceptable levels. Most kits include chaffer dividers, grain return pan partitions, grain agitator paddles and attaching hardware.

Feature benefit:

- Reduces grain loss out of the rear of the combine on side hill slopes
- Increases combine productivity by not having to slow down on side hill slopes

ActiveYield™ Retrofit Kit

ActiveYield maximizes the system's accuracy with no effort or time away from harvest. Every field, every variety, ActiveYield delivers quality yield data. ActiveYield senses the weight of the grain in the grain tank as it fills. The combine uses the weight information to calibrate the yield system continually throughout harvest. This gives the operator optimized system accuracy and reliable yield data.

Get Sound Advice from **Combine Advisor™**

With a trifecta of technologies designed to maximize your harvest, Combine Advisor is now available as a **field-installed retrofit kit** for S700 Series Combines (MY18 and newer). The robust suite helps you target optimal settings and then automates the combine to maintain peak performance in changing conditions. Combine Advisor includes:

- **HarvestSmart™** to automate feed rate
- **Active Terrain Adjustment™** to manage changing terrain
- **Auto Maintain w/ActiveVision™** to monitor crop conditions

Contact your John Deere dealer to learn more about Combine Advisor.

GT-5300 Grain Moisture Tester

The GT-5300 provides all the benefits of our MoistureMatch Grain Moisture Tester (SW20300) and more. Featuring cutting-edge technology, the GT-5300:

- Automatically averages a selectable number of tests
- Provides the actual moisture-limit percentage
- Stores user calibration and averages for each grain
- Offers a larger, illuminated LCD display

NUMBER	DESCRIPTION	LIST
SW5300	Grain Moisture Tester	\$319.76

GT-30300 Grain Moisture Tester New—Hot Grain Capabilities up to 160°F

The GT-30300 Grain Moisture Tester really measures up. Featuring the latest technology, the SW30300:

- Provides temperature range between 40–160°F
- Measures moisture and test weight (no pre-weighing)
- Provides moisture range between 6–45%
- Tests 16 grains (program space for over 40 grains)
- Connects to diagnostics via USB
- Features large back-lit LCD screen and fonts
- Repeatability and accuracy $\pm 0.2\%$ in normal moisture range
- Comes with 2-year limited warranty

Guidance & Machine Control

AutoTrac™ Intergrated Machine Kits and GreenStar™ Ready Kits make it easy for you to be Precision Ag-ready when the time arrives. The AutoTrac Machine Kits include the appropriate machine steering controller when necessary and AutoTrac Ready accessories. The display, receiver, and software to complete the system are sold separately. These field-installed kits are an integrated guidance solution for John Deere machines and are compatible with the GreenStar 3 or GreenStar 2 system components. Gain the edge and get the results you want and need with genuine John Deere AMS components.

RE596959

Auxiliary Power Adapters for 7R and 8R/8RT/8RX (with new cab)

Two new solutions are available to provide an octagon style power outlet for connecting displays, monitors, and other electronic devices. The first is a 3-pin octagonal power adaptor that connects to the 3-pin round convenience outlet. The second option will retrofit a power strip with 6 octagon style outlets same as what was available in 7- and 8-Series tractors prior to the new cab design.

NUMBER	DESCRIPTION	LIST	NOW
Adapter for 1 Octagon Outlet Plug			
RE596959	3-pin Octagonal to 3-pin Round Convenience Outlet (flat pins) Single Device Adaptor	\$31.84	\$30.25
6-way Power Strip and Mount			
RE596958	6-outlet Octagonal Powerstrip with Pre-installed Round Convenience Outlet (flat pins)	\$54.52	\$51.79
BRE10575	Mounting Rail, C-pillar 1750 cab	\$89.10	\$84.65

Foot Rests – Retrofit Kit

Adds two forward facing risers and foot rests to the cab (no drilling or welding required). These foot rests are helpful when operating on steep downhill grades, sidehills, or watching towed implements. These custom cast iron risers designed for this Series cab, bolt into existing locations used to mount the steering column to the cab frame and can support up to 400 lb/ft of total force. Complete kit includes all parts and hardware.

NUMBER	DESCRIPTION	LIST	NOW
BRE10471	MY11–MY20 7R Tractors (excluding new 2020 cab design), MY09–MY20 8R/8RT Tractors (excluding new 2020 cab design), and 2012–Current 9R/9RT/9RX Tractors.	\$326.70	\$310.37

LED Beacon – Retrofit Kit

This kit completely eliminates the rotating beacon assembly. The riser system retains the approved DOT height requirements and includes a patent pending fold and lock “breakaway” system. This fold and lock system helps protect the beacon from being damaged due to height limitation, folds out of the way by hand and can easily be unfolded when needed. This LED beacon eliminates the need to replace bulbs, motor belts, or broken/foggy domes. Kit includes harness, foldable riser, and LED beacon. Install requires existing beacon harness, cab switch, and mounting post. Note: If tractor already uses two beacons, order two LED retrofit kits.

NUMBER	DESCRIPTION	LIST	NOW
RE596638	MY11–MY20 7R Tractors (excluding new 2020 cab design), MY09–MY20 8R/8RT Tractors (excluding new 2020 cab design), and 2012–Current 9R/9RT/9RX Tractors.	\$98.00	\$93.10

7R/8R Greaseable Hitch Pins – Retrofit

These pins can be universally used in six locations on the rear hitch. The greaseable hitch pins can provide extended life with proper lubrication vs the prior non-greaseable design.

NUMBER	DESCRIPTION	LIST	NOW
BRE10500	MY11–MY20 7R Tractors (excluding new 2020 cab design), MY09–MY20 8R/8RT Tractors (excluding new 2020 cab design)	\$242.00	\$229.90

Wide Angle Mirrors

See the benefits from a wider range of rear visibility with wide-angle mirrors. Regardless of how the tractor came equipped, these kits will upgrade existing mirrors with wide angle lenses and a standard mirror. This upgrade includes power extending arms, power rotating head, and heated lenses. The kit provides both mirrors for the left and right side of the tractor.

NUMBER	DESCRIPTION	LIST	NOW
BRE10470	MY14–MY19 7R and 8R Wheel Tractors. Full electric operation and kit includes LH and RH Mirrors. (not compatible with 8RT, 9R, 9RT, and 9RX models)	\$995.50	\$945.73

AC Compressors

When things heat up and you need to replace your AC compressor, make sure you talk to the experts at your John Deere dealer. Many aftermarket offerings are automotive-style compressors and not meant for off-road applications. Compressor offerings from John Deere include original equipment new compressors, John Deere Reman compressors, and A&I Products. John Deere Reman compressors are remanufactured back to the original John Deere specifications. A&I Products offer AC compressors without the oil so they can be used in either R12 or R134a applications.

Receiver Dryer

The receiver/dryer is designed to remove moisture from the air-conditioning system. Over time, it will become saturated with moisture. Moisture combines with refrigerants and creates acids that accelerate the corrosion of internal component parts. Therefore, if an air-conditioning system has been in service for any extended period of time and is opened for service, it is wise to replace the receiver/dryer.

REBUILD WITH REPOWER

If your 5-, 6-, 7-, 8-, 9-, or older row crop tractor Series needs a major repair, you can now fix it thanks to a limited-time offer from John Deere Financial. The **all-new Repower Program** provides No-Payment/No-Interest (NP/NI) or low-cost financing for new and Reman engines, transmissions, axles, and final drives—as well as repairs to front independent link suspension. But that's not all because you can also finance work to cab interior, hydraulics, engine accessories and exterior finishes. **Qualifying models include:**

- 5000–5025, 6000–6030, 7000–7030, 8000–8030, 9000–9030, and Older Row Crop Tractors.

Take advantage of this special financing opportunity through **October 31, 2021** when you use your Multi-Use Account. **Ask us about the Repower Program today.** For more information on the John Deere Reman benefits and component exchange process go to this web link. <https://www.deere.com/en/parts-and-service/parts/remanufactured/>

Repower Program Finance Options

Minimum Purchase

365 Days NP/NI (12 Months)¹ \$10,000

Fixed 1.9% with 24 Equal Monthly Payments² \$10,000

Fixed 2.9% with 36 Equal Monthly Payments³ \$10,000

¹Subject to John Deere Financial approval and John Deere dealer participation. Unless otherwise specified, programs are for purchases on agricultural and commercial Multi-Use Accounts only. Minimum finance amount is required. After Promotional Period, interest charges will begin to accrue at the Multi-Use Account Rate. Programs subject to change, without notice, at any time. Offer valid November 1, 2020–October 31, 2021.

²Offer valid on qualifying purchases made between November 1, 2020 to October 31, 2021 and is subject to approved credit on a Multi-Use Account, a service of John Deere Financial, f.s.b. For agricultural and commercial use only. Fixed 1.9% APR with 24 equal monthly payments. Payments are required during and after the promotional period. After the promotional period, interest charges will begin to accrue at the regular Multi-Use Account rate. Minimum \$10,000 purchase required. Available at participating merchants, see your local merchant for complete details.

Extended Warranty for John Deere Reman Engines*

Starting February 2020, optional extended warranty terms for John Deere Reman engines can be purchased. Coverage options are between 2-year/2,500 hours and 5-year/4,000 hours. To qualify for the program, the engine must be dealer installed and the customer must purchase the extended warranty contract within 90 days of engine installation. Contact your John Deere Dealership for complete details.

*Complete engines only.

Track Belts

Track belts are worn-out when the tread bar is 1/2" or less in height, cables are protruding from the carcass, or drive lug wear exceeds 50%. A selection of track belt options are available for your tractor. The 2500 Series track belt is the lowest cost option and a good choice for older tractors used less than 500 hours per year. The 3500 and 4500 Series track belts are a better quality belt than the 2500 Series and a better choice for tractors used 500 to 1000 hours per year. The 5500 and 6500 Series track belts are heavy-duty belt options providing great durability and recommended for tractors used more than 1000 hours per year or in harsh work environments. Note: this is a brief description about the track belt Series differences for more complete details and to determine which belt will work best for your tractor application please contact your local John Deere dealer. The track belts listed below are only a small sample of the track belt selections available for two and four track tractors.

Track Tractor Mid-Rollers

If it's time to replace your track mid-rollers, make sure you talk to the experts at your local John Deere dealer. They carry a full line of track and undercarriage replacement parts. Rubber replacement mid-rollers are an economical option and are a good choice for tractors that are not in heavy transport conditions. Poly mid-rollers have a higher heat resistance and are the best choice for narrow tracks or machines that are roading under high-load conditions. **Now Available John Deere Reman polyurethane mid-rollers. This lower cost option is built and tested to John Deere specifications.**

John Deere Reman Mid-Roller Benefits

- Uses original OEM steel hubs
- We use the same polyurethane molding process on Reman and new OEM wheels.
- 12-month parts warranty

Checking Vari-Cool Fan drive belt wear is a very important routine maintenance step to avoid downtime. Use belt gauge R569237 shown in the picture above, which can also be purchased at your local John Deere dealer.

Vari-Cool Fan Drive Belt Information:

For 8R/8RT/9360R/9370R 9.0L

Belt Part Number: R568198
New Specification: 34 MM
Replace Specification: 29 MM

For 9R/9RT/9RX 13.5L

Belt Part Number: R300399
New Specification: 38 MM
Replace Specification: 36 MM

For 9330-9630 and 9430T -9630T

Belt Part Number: R239551
New Specification: 38 MM
Replace Specification: 36 MM

Failure to Replace Worn-out Belt:

The following can occur when the fan drive belt is worn-out beyond the maximum wear specification.

- The system may generate Vari-Cool™ fan drive DTC's.
- Clicking noise
- Damage can occur to the driver and driven assemblies

9.0L Vari-Cool™ Fan Drives

The updated driver and driven assemblies will improve serviceability and reliability of the fan drive assembly. The new dry driver and dry driven assemblies require no grease. The customer will no longer need to lubricate these two components once the update is complete. To maximize the reliability of the fan drive system, we encourage customers to replace the driver and driven assemblies at the same time. A worn driven assembly will potentially reduce the expected life of a new driver when only the driver is replaced.

Fan Drive Maintenance YouTube® Videos

Maintenance of the Vari-Cool™ Fan drives is important to keep the system running at optimal performance and prevent possible failures. Please make sure to view the 3 new videos created and made available on YouTube.

13.5L Gen 1 Vari-Cool™ Fan Drive Update Assemblies

To maximize the reliability of the fan drive assembly we encourage customers to replace the driver, driven assemblies, and rotary union at the same time. After upgrading the complete 13.5L Gen 1 fan drive assemblies for 9030 Series tractors the factory recommends inspecting these assemblies every 250 hours. Every 250 hours grease the driven sheave fitting. The fitting on the opposite side provides fan balance and service position convenience. Pump grease into the sheave lubrication fitting (zerk) until grease is visible coming from the shaft vent.

IMPORTANT: Use TY25744 Multi-Purpose Extreme Duty Synthetic Grease (is the best choice), if this grease is not available the following alternative can be used AN102562 Special-Purpose Corn Head Grease.

Dual USB 4.8A Charger

As more and more electronic devices are used in the cab, getting power to keep things running and charge batteries is essential. There are other 12V lighter plugs on the market, but many will only allow operation and “not charge” the device. The PM191-052901 USB adapter will do both. With each port putting out 2.4A, this charger is built to run and charge today’s most power hungry tablets, phones and other devices.

2-Channel Bluetooth® Amplifier

Don’t have a radio head unit in your tractor, no problem! Remove the radio cover, and plug the amplifier directly into your John Deere radio harness and pair your device to stream your music through the factory cab speakers. Place amplifier in the opening, replace the cover and enjoy your favorite music!

Features:

- 80 watts max (40-watt RMS)
- Bluetooth audio (A2DP)
- Waterproof (IPX6)
- Operating voltage: 10 - 18VDC
- Bluetooth pairing button can be flush mounted
- 10 amp fuse in waterproof container

JOHN DEERE

SEIZE THE APPORTUNITY

Get a bigger and better picture of your tractor with the **FREE TractorPlus™ App**¹ from John Deere. Packed with tools that offer in-depth information, TractorPlus features a built-in barcode scanner to identify your equipment and unlock important details about your tractor. Our powerful app lets you:

- View operator's manuals
- Order maintenance parts
- Track equipment paths
- Search diagnostic trouble codes (DTCs)
- Watch Frontier™ Tips Notebook how-to videos

¹TractorPlus App is compatible with 1, 2, 3, 4 and 5 Series compact utility and utility tractors.

And with a **TractorPlus™ Smart Connector**², you can get even more functionality. This easy-to-install telematics device wirelessly connects the tractor's control area network

(CAN) via Bluetooth® to a user's mobile device and the TractorPlus App so you can receive:

- Live dashboard displaying tractor values
- Richer equipment tracking
- Automatic updates to engine hours
- Access to active and stored DTCs
- Fuel level and other values

²TractorPlus Smart Connector is compatible with select model year 2032R through 5R compact utility and utility tractors.

Get connected today by downloading the FREE TractorPlus App from the App Store® or Google Play™. To order a Smart Connector Module Kit, go to JohnDeereStore.com or contact your local dealer.

John Deere OE Engine Overhaul Kits

Here are some examples that make the John Deere OE engine overhaul kits the “Best” choice. John Deere liners are heat-treated to a precise hardness and depth to increase durability and life. Proper heat-treat hardness provides a hard surface with good wear characteristics. Pre-assembled piston liner kits eliminate the chance for broken or improperly installed piston rings, which can cause power loss, oil consumption, and excessive wear, leading to seized pistons and potentially premature engine failure. Fiber-reinforced piston bowl rings provide more than twice the yield strength of aluminum alloy and increase the operating pressure and temperature range without the risk of cracking. John Deere uses two layers of metal alloy on the ID face of the main bearings to protect them from the constant rotational forces of the crankshaft.

Standard Kit:

- Rod, main, and thrust bearings
- Thrust washers
- Oil pan split gasket
- Factory assembled piston/liner kits
- Liner packings
- Front and rear seals
- Gasket rings
- Snap rings

Expanded Kit:

- Standard kit contents
- Rod bolts and bushings
- Piston pins
- Camshaft bushings

Electronics Repair & Return Program

Skilled technicians. Quick turnaround. Competitive pricing. It's what you need when electronics go on the fritz and what you get from Electronics Repair & Return by John Deere Reman.

Now available, this convenient service offers you a true John Deere solution for the OEM repair of some of your most important electronic components. And better yet, it's all backed by a valuable 12-month Limited Warranty** that's sure to please. Turn to John Deere for electronics repair and be rewarded with fast, reliable service to get your machine up to speed again.

**The John Deere Reman Electronic Repair & Return 12-month Limited Warranty covers specific repairs on each component. John Deere Reman will repair or replace unit during the applicable warranty period but is not responsible for any labor costs associated with the removal and installation of the components.

REPAIR LEVEL	DESCRIPTION
Evaluation Charge	For all components listed below, the cost to evaluate the repair will only be charged when component can not be repaired, or if customer decides not to complete the recommended repairs.
StarFire 3000 and 6000	
Primary Inspection and Repair	Replace damaged dome with original-equipment John Deere Parts. Includes light pipe and decals. Unit will be fully functionally tested.
Comprehensive Inspection and Repair	Repair all points of failure to hardware within the SF3000 or SF6000 receiver. John Deere original equipment testing, processes, and procedures used to bring the receiver back to like new condition. Includes electronic components, connectors, cables, solder reflow, and new dome.
GreenStar 1800 Display	
Complete Repair	Repair all hardware failure points within the 1800 Display. John Deere original equipment testing, processes, and procedures used to bring 1800 Display back to like new condition. Includes electronic components, connectors, audio alarm, housings, and solder reflow.
GreenStar 2600 Display	
Complete Repair	Repair all hardware failure points within the 2600 Display. John Deere original equipment testing, processes, and procedures used to bring 2600 Display back to like new condition. Includes electronic components, connectors, membrane switch, card reader, audio alarm, touchscreen replacement, housing, and calibration.
GreenStar 2630 Display	
Complete Repair	Repair all hardware failure points within the 2630 Display. John Deere original equipment testing, processes, and procedures used to bring 2630 Display back to like new condition. Includes electronic components, connectors, membrane switch, USB cover, audio alarm rear housing, air-gap LCD touchscreen with front housing, bezel assembly, and calibration.
GreenStar 4640 Universal Display (10 inch)	
Screen Replacement	Replace broken touchscreen glass using original equipment John Deere Parts and functionality test.*
Screen and LCD Replacement	Replace touchscreen and LCD components with original John Deere Parts and functionality test.* <small>(*Both repair options include speaker repair.)</small>

Specific crop conditions — Abrasive (Peanut Hay and Cornstalks)

John Deere Round Baler attachments

Side-sheet Enhancement

BUY NOW, PAY LATER

When you put it on your multi-use account.
Ask us for details!

1 Side-sheet Enhancement

Protect your round baler where you need it most — inside the walls. Made with rugged carbon-manganese steel that withstands extremely abrasive crop and field conditions, it delivers a dramatic increase in your baler's service life.

BE32101 468, 469, 568, 569, 460M/R, and 560M/R
BE32141 467 and 567

MegaWide Plus Pickup or HC2 Pickup required

2 Push Bar

Now you don't have to back up to eject bales. With two long spring-loaded arms and a center bar, this baler bar pushes each bale rearward with a positive force to ensure clearance for closing the gate.

BE32556 567, 568, 569, and 560M/R
BE32555 467, 468, 469, and 460M/R

Push Bar

Cornstalk Compression Rack

3 Cornstalk Compression Rack

Feed tough, abrasive cornstalk windrows into your baler with greater ease while protecting your equipment. This hardworking rack contains a solid steel shaft that's heavy enough to help compact stalks and leaves against the pickup. For use with cornstalks on 5-foot MegaWide™ Plus Pickup. Change out when baling other crops.

BE32257 558, 559, 568, 569, 550M/R, and 560M/R

MegaWide Plus Pickup or HC2 Pickup required

Talk to us today about how attachments can help you **Do More** with your baler.

10% OFF Select John Deere Round Baler Attachments.*

JOHN DEERE

*Offer valid July 1, 2021–September 30, 2021. Receive 10% off of select John Deere Round Baler attachments, to be applied to the total before applicable taxes, shipping rates, and delivery charges. Standard shipping rates only. Redeemable at participating John Deere dealers in the U.S. and Canada. Add More Productivity

with John Deere Round Baler Crop-Specific attachments

Crop Conditions—Abrasive (Peanut Hay and Cornstalks)

Attachments

DiamondTough™ Pro Baler Belts

Most wear- and tear-resistant belt in the industry. Provides greater performance, increased uptime and reduced cost of operation in tough baling conditions.

Short:

AFH210848 469, 569, 460M/R, and 560M/R

Short:

AFH212598 459, 459E, 559, 450E/M, and 550M

Long:

AFH210849 469, 569, 460M/R, and 560M/R

Long:

AFH212599 459, 459E, 559, 450E/M, and 550M

Corncob Filler Plates

Keep threshed corncobs moving smoothly into the baler without snags. These plates also help to eliminate tooth breakage from cobs or other material that gets caught between the pickup strippers. Available for MegaWide™ Plus Pickups, these plates will improve pickup tooth and rotor tine reliability.

BE32310 7, 8, 9, and Zero Series

MegaWide Plus Pickup or HC2 Pickup required

Variable-Core Valve Kit

Control hydraulic pressure for easier starts, even in difficult conditions. Reduces core density to your preference.

BE32298 459* and 450E

BE24159 457, 458, 459, 557, 558, 559, 450M, and 550M

**Available only for machines ordered with option 5050-Electric Tie for BE32298 only*

Net Wrap Pan Liners

Restoring your net wrap pan is easy and convenient with this liner. This can be done at a fraction of the cost of replacing the complete assembly. Place the liner over the factory pan and weld it in place. You're all done!

FH332540 4 ft. Liner

FH332541 5 ft. Liner

Advanced Hay, Straw, and Silage Tester

This newly advanced Hay, Straw, and Silage Tester is the most efficient probe on the market. The 20" stainless steel probe and tip provides accuracy, versatility, and durability. The SW07305 will measure push force to determine whether it's a high- or low-density bale, then adjusts the moisture result for more precise accuracy.

Features:

- Measures 8–72% moisture content
- Temperature range 32–185°F (0–85°C)
- Automatic Density Compensation
- Choice of hay or straw bales, separate mode for silage
- Memory can store results up to 64 bales with a total of 1,000 savable moisture and temperature readings
- Continuous reading as you probe bale

Dura-Flex Bearings

John Deere Dura-Flex bearings continue to offer superior quality and consistency that is unmatched by aftermarket will-fit bearings. Introduced in 2005, they are used on disk gang assemblies and rolling baskets up to the 2600 series disks.

Dura-Flex Bearing Features:

- Includes 2-year warranty
- Built using a ball ridging, one-piece, molded nylon cage for perfect alignment
- Engineered with a thicker inner bearing race that creates a stronger cross section to withstand tough loads
- Designed with a heavy-duty bearing so the ball is harder than the rings
- Provides total clearance between rings and rolling elements for optimal load distribution and free rotation to allow for thermal expansion
- Prevents premature bearing failure with smooth rolling bearings
- Contains a chamfer in the lubrication hole to ensure proper grease flow

Maintenance-Free Bearings

Maintenance-free bearings were introduced with the 2600 series disks. They are used on disk gangs and rolling baskets.

Maintenance-Free Bearing Features:

- Includes 2-year warranty
- Increases productivity by reducing the amount of required service time
- Packaged with rust-preventative paper for added protection

NUMBER	DESCRIPTION	APPLICATION	LIST
AKK16196	Maintenance-Free Bearing	Disks: 2620, 2623, 2623VT, and 2625 Rippers: 2720 and 2730	\$90.27

Extended Life Greaseable Bearing

Features & Benefits:

- Allows for limited, seasonal maintenance interval to minimize downtime
- Customized bearing maintenance for specific growing conditions and soil types
- The sealing system features improved contamination resistance

NUMBER	DESCRIPTION	APPLICATION	LIST
AKK22197	Extended Life Greaseable Bearing	Disks: 2600, 2623VT, 2630, 2633VT, and 2660VT Series	\$43.40

Cotton Parts and Attachments

Take Your Pick

All John Deere spindles are manufactured in John Deere facilities utilizing next-generation heat treat controls to create the most consistent heat-treated spindles on the market. Plus, 25 unique quality checks at 7 manufacturing points ensure the highest quality product.

For average annual usage and picking conditions, the John Deere PRO Series Spindles offer a reliable value-priced option. For higher annual usage or harsh picking conditions, Pro-XL™ Spindles offer up to 50 percent longer life than the John Deere PRO Series Spindles.

Individual spindles and convenient spindle assemblies are now available for both PRO and Pro-XL spindles ... take your pick.

Spindles

- John Deere controls the entire manufacturing process including heat treatment, chroming, and quality inspections
- A unique data matrix on each spindle ensures quality control, consistency, and traceability
- Three sets of 12 barbs per flute for efficient picking
- Case hardening ensures the spindles will break and not bend when striking solid objects to minimize damage to the picking units

NUMBER	STYLE	APPLICATION	LIST	NOW

Moistener Pads

These specially designed pads feature an X pattern to ensure proper moisture distribution on picking spindles operating in all types of conditions. Precise fins provide an even flow of cleaner from the pad to the spindle, ensuring optimum picking performance. Pads are made of long-lasting urethane. A tight fit keeps debris from plugging the moistener system or tearing the pad off during harvest.

NUMBER	DESCRIPTION	LIST	NOW
N275607	Urethane Moistener Pad	\$2.45	\$2.30

Pressure and Scrapping Plates

Our pressure plates, pressure plate extensions, and scrapping plates provide a profile that will keep the cotton plant in the picking zone longer, giving the spindle more opportunity to harvest the cotton off the plant.

Essential lubricants

John Deere Spindle Cleaner and Grease boost your harvesting performance and reduce your operating and maintenance costs.

■ Spindle Cleaner

Spindle Cleaner protects your cotton picker's mechanical parts from rust, oxidation, and corrosion—yet it won't wash spindle grease off bushings and attachments.

■ Spindle Grease

John Deere Spindle Grease is an all-in-one, lithium-based lubricating grease, gear lubricant, penetrating oil, and corrosion protector. It reduces the amount of wear from metal-to-metal contact in your picker head, and it extends the service life of high-wear parts.

Call us today to learn more.

Bring your cotton harvester up to speed now. And enjoy the ride come harvest.

With a comprehensive, pre-season inspection from John Deere, you can head out to the field with confidence knowing your machine is in tip-top condition for harvest.

Our certified technicians will thoroughly examine every critical area of your picker or stripper and replace worn parts as needed with genuine John Deere parts. Most importantly, we'll adjust row units to exact factory specifications so you achieve optimal efficiency throughout the season.

Contact us today for a pre-season inspection.

Scrapping Plates

Scrapping plates boost harvest efficiency by pushing cotton further into the spindle picking zone.

BKK10319	CP690, CS690	\$3,121.80	\$2,934.49

Spring Tension Feeder Belt Kit

Proper adjustment of the cotton feeder belt is critical for performance and reliability of the round module cotton harvester. If the feeder belt tension is set too loose, the belt can slip. If it is set too tight, damage to the lace and/or belt can occur. The spring tension feeder belt kit makes it easier to properly set the feeder belt tension during machine operation.

Cotton Stripper Bats and Brushes

Worn bats and brushes leave more cotton in the field and less in your module. To ensure peak harvesting efficiency, you'll want to monitor their condition and replace worn components. John Deere cotton stripper bats and brushes are manufactured from the highest quality raw materials. Their steel channels are electro-galvanized to prevent rust. Finally, products are thoroughly inspected to ensure quality.

7000 Series SPFH Parts and Attachments

7780

Feeding Parts – 7000 Series

John Deere feed rolls, wear strips, and bolts are made from heavy-duty, induction hardened stainless steel, which helps to minimize potential downtime. They are also demagnetized to prevent them from false tripping the metal detection system.

Kernel Processor Rolls

The John Deere kernel processor is induction-hardened rather than flame-hardened, like many competitors' rolls. What does that mean to you? Hardening is much more consistent, resulting in a longer life and fewer repair costs. The hardening zones of a John Deere roll are shown in the illustration to the right.

LaserRip Classic Ripper Points

The John Deere LaserRip™ Classic is a low disturbance ripper point, ideal for operators who want to create less soil disturbance and a more even soil profile at shallower depths. The LaserRip Classic has improved thickness and reinforced in key critical wear areas of the sweep compared to the previous version of the low disturbance ripper point.

NUMBER	DESCRIPTION	LIST	NOW
KK47198	7" LaserRip™ Classic	\$125.37	\$117.85
KK47199	10" LaserRip™ Classic	\$162.27	\$152.53

Min-Till Ripper Points

- Wingless points provide ultra-low surface-soil disturbance
- Choose 7-in. points for moderate soil disturbance
- 10-in. points deliver low surface-soil disturbance
- Fits John Deere 913 and 915 Rippers and 2100 Min-Till Ripper

NUMBER	WING WIDTH	LIST	NOW
John Deere LaserRip Min-till $\frac{3}{4}$-in. Straight Standard (ultra-low-to-moderate soil disturbance):			
N262903	Wingless	\$120.84	\$113.59
N262740	7-in.	\$137.84	\$129.57
N262902	10-in.	\$118.76	\$111.63

Steel Ripper Points

- Designed for highly abrasive soils
- An economical way to meet standard tillage needs
- Fits common Integral Min-Till V-Rippers and Disk Rippers

NUMBER	SIZE	THICKNESS/TYPE	LIST	NOW

Stainless Steel Air Seeder Parts

Now Available from A&I Products

**Air
Seeder
Parts**

Corrosion-resistant 304 stainless steel and high abrasion and wear plastics.

Patent-pending design has individual row shutoff with both manually and automatically operated slide gates.

These units are washable, with a cleanout at the bottom of the meter. They require no foam, and are maintenance-free, with no need for grease.

This exclusive single-wall design doesn't allow fertilizer dust to accumulate in an air cavity. No air cavity means no swelling or distortion.

a&i products

Air Seeder Hose—Low Pressure

John Deere offers 1-in. through 2½-in.-diameter, clear with green or black helix hose for air seeder applications. This clear, smooth-core, PVC hose is recommended for heavy-duty suction and discharge of seed, as well as agricultural chemicals, marine, and liquid waste.

Meters, Rollers, and Tuning Rings for John Deere Air Seeders

Use the low meter roller for seeds such as flax, canola, and alfalfa. The medium roller is best when planting wheat, barley, canola, and small soybeans up to ¼ inch in diameter and with medium rates of fertilizer. The high rate roller is for high rates of fertilizer and large soybeans bigger than ¼ inch in diameter. The very high rate roller is best used when planting barley and oats with beards, large seeds such as garbanzo beans, and with very high fertilizer rates. Fine tuning rings reduce the amount of product available to meter for increased accuracy.

NUMBER	METER TYPE	APPLICATION RATE	LIST	NOW
Meter Roller Kits:				
AA45605	Low	1–20 lb. per acre	\$71.36	\$67.08

ProSeries™ Seed Opener Performance Upgrade Kits for 60- and 90-Series Openers

The ProSeries Opener offers agronomic advantages and extended wear life compared to the current 90-Series openers. For 60-Series openers, to be compatible, seed tubes must also be upgraded to the 90-Series seed tubes.

Features include:

Seed Boot – A narrower, tighter fit to the disk results in less soil throw for better seed-to-soil contact and extended wear life.

Press Wheel – Narrower and more flexible press wheel improves overall seed-to-soil contact for more even emergence, plus upgraded double-row ball bearing extends service life.

Serrated Closing Wheel – Improved closing system when seeding in harder, drier conditions. The notches on the wheel break up the drier soil for better germination.

Seed Tab – Improved material for longer wear life, angled and more flexibility in the seed trench results in less seed bounce for more consistent seed placement.

Closing Spring – Easier adjustments.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
AA97392	Seed Opener Performance Upgrade Kit	8-rows (4 right/4 left)	\$1,995.00	\$1,875.30
AA98693	Seed Opener Performance Upgrade Kit	2-rows (1 right/1 left)	\$ 525.00	\$ 493.50

Separate Fertilizer Placement Openers for 90-Series

Features include:

SFP Sealing Wing allows for better sealing of NH3 in the ground.

Kit contents include: Scraper, Sealing Plate, Disk Opener, Hardware, (smooth or serrated closing wheel is not included).

New Tank Scale Kit

Tank Scale Kits enable ActiveCal which will calibrate the machine throughout the day to ensure the proper rate is being applied.

NUMBER	DESCRIPTION	LIST	NOW
BA33675	30 & 36 ft. (100 bushel tank) Tank Scale Kit for N530C and N536C	\$2,986.18	\$2,807.01
BA33676	40 & 42 ft. (120 bushel tank) Tank Scale Kit for N540C and N542C	\$3,559.60	\$3,346.02
BA33840	Wireless Data Server Kit	\$2,677.63	\$2,516.97

* For BA33675 and BA33676, also order AA102049 software.

** To use the SeedPlus App, the Wireless Data Server kit is needed. The SeedPlus app allows you to enter initial bag calibration weights at the rear of the machine. It also provides the read out of the tank scales.

New Longer Agitator for Air Cart

Bearded crops such as barley and oats tend to bridge or lodge in the tank and not flow down into the meters easily. The new longer agitator reduces bridging or tank blockage and keeps the seed flowing down into the meters.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
A111468	Will fit anything that currently uses part A62799.	C650, C850, 1910, and 1900 Air Carts	\$23.28	\$21.88

New Wide Packer Wheel

Good seed to soil contact is fundamental for plant emergence. The new wider packer wheel is being released to meet customer demands and competition.

Mixing of new AA100716 and previous packer wheel AA73487 is possible, but not recommended. There is not currently a scraper available for this wheel – the current scraper will shed mud, but there is still a risk for mud build-up in certain conditions.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW

SOLUTIONS FOR YOUR SPRAYING NEEDS

High-flow

PRE- AND POST-EMERGE FERTILIZER

- Wide 140° angle allows low boom height minimizing corrosive effects on equipment
- Tapered wide-angle fan style promotes uniform nutrient application

LIST: \$9.70

NOW: \$9.12

Ultra-low-drift

PRE- AND POST-EMERGE HERBICIDE

- 60° thick spray pattern front to back and 120° wide spray angle enables lower boom height to reduce drift
- Air-induced droplets minimize drift potential without sacrificing coverage

LIST: \$8.56

NOW: \$8.05

3D

ALL-PURPOSE, PLANT HEALTH AND CONTACT HERBICIDES

- Tight, inclined spray pattern delivers 3-dimensional coverage on hard to hit targets
- Delivers 50–75% less drift compared to flat fan nozzles

LIST: \$6.79

NOW: \$6.38

Low-drift Max

Low-drift Twin

Ultra-low-drift Max

POST-EMERGE PLANT HEALTH

- 120° wide and 60° thick pattern provides optimum coverage while maintaining overlap at low boom heights
- Dual pre-orifice nozzle reduces drift with Coarse, Very Coarse and Extremely Coarse droplets

LIST: \$11.27

NOW: \$10.59

- Twin 30° forward and rear-facing dual angles for superior coverage
- Delivers Medium and Coarse droplets across wide operating range and sizes to meet speed/rate needs

LIST: \$10.13

NOW: \$9.52

- 130° spray angle allows lower boom heights to reduce drift and prevent pattern collapse when using drift-reduction adjuvants
- Delivers Extremely Coarse and Ultra Coarse, air-filled droplets for 90-95% drift reduction compared to standard flat fan nozzle

LIST: \$9.41

NOW: \$8.85

Download the EquipmentPlus™ App and use the Nozzle Select Tool to purchase spray nozzles, right from your phone.

Express Nozzle Body End Caps

Improve system hygiene by removing the dead zone on the end of the boom pipes, reducing air and residue buildup.

- Allows air to escape through the nozzle body, reducing turn-off/turn-on times by up to 85%
- Removable end plug allows easy access for boom cleanout

NUMBER	DESCRIPTION	LIST	NOW
PM74333314	1-in. Express Cap Fitting w/ Nozzle Body End Cap (high flow)	\$37.43	\$35.18
PM74333316	1-in. Express Cap Fitting w/ Nozzle Body End Cap (standard)	\$37.43	\$35.18

Express Flush Valves

This valve allows quick flushes of the entire boom section with a turn of a handle. Purchase the Express Flush Valve alone or installed on the Express End Cap.

- Easy to use valve does not require any tools to open flushing mode
- Reduces flush time by 5 seconds per valve compared to standard Express End Caps alone
- Compact design limits the length it extends beyond the last nozzle body to fit most booms

NUMBER	DESCRIPTION	LIST	NOW
PS74333318	Express Flush Valve – High Flow	\$39.34	\$36.98
PS74333320	Express End Cap with Express Flush Valve Installed – High Flow	\$57.93	\$54.45

Erase

Powerful spray system cleaner that penetrates and removes dried-on and oily residue in tanks, sprayer lines, and hoses to help prevent cross-contamination.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM433QT	Erase Spray System Cleaner	1 qt.	\$12.66	\$11.90
PM43301	Erase Spray System Cleaner	1 gal.	\$37.41	\$35.17

Incide-Out™

Incide-Out is a liquid spray tank cleaner that emulsifies and bonds pesticide residue to rinse water for complete purging.

- Penetrates residue buildup
- Contains corrosion inhibitors to protect equipment

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM434QT	Incide-Out Spray Tank Cleaner	1 qt.	\$12.89	\$12.12

Enduron PSI™

Formulated marking foam that generates greater volumes of foam for higher operating pressures and application speeds.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM65201	Enduron PSI	1 gal.	\$36.37	\$34.19

Tracer™ Hot Pink

Marking foam colorant that increases foam visibility in drilled crops and heavy residue situations where optical clarity of white foam is limited.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM741QT	Tracer Hot Pink	1 qt.	\$38.20	\$35.91

Gundown Elite™

Defoaming agent that works in seconds to provide faster results.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM739QT	Gundown Elite	1 qt.	\$20.60	\$19.36
PM73901	Gundown Elite	1 gal.	\$62.75	\$58.99

Nozzle Body Turret O-Ring Lubricant

Over time the o-rings between the turret and nozzle body get dusty, which makes rotating the nozzle body difficult when changing between nozzles. Parker Super O-lube is the John Deere preferred product for lubricating o-rings on sprayers with our new ExactApply™ nozzle bodies, as well as those on older machines.

Features/Benefits:

- High-viscosity silicone oil that can be used with virtually any rubber polymer over temperatures ranging from -65°F to 400°F (-54°C to 204°C)
- Will not clog 30-micron filters
- Recommended for high pressure systems

NUMBER	DESCRIPTION	LIST
PMH3503	Super O-Lube, 2-oz. tube	\$19.40

OEM Sprayer Pumps

John Deere's broad line of centrifugal pumps allows you to match the right pump to your equipment and task. The models include cast iron, stainless steel and polypropylene that stand up to strong chemical herbicides.

- Compatible with corrosive, abrasive and general use chemicals
- Models include high volume (440 gpm) and high pressure (190 psi) capabilities
- Nylon, polypropylene impellers on most models
- Life Guard® silicon carbide mechanical seals standard on all stainless steel pumps and available on select cast iron and polypropylene models

High-Flow Nozzle Body

Our 5-way nozzle body enables quick spray nozzle changeover. Simply rotate the nozzle body until the desired nozzle is in the spraying position.

- Designed to deliver the highest flow rates across the spraying pressure range
- Provides the lowest pressure drop at any given flow in the industry
- Reduces restrictions in the flow path through a unique DCV design
- Supports faster field speeds with the same coverage

NUMBER	DESCRIPTION	LIST	NOW
AN206621	5-Position High Flow, 1 1/16-in. port, Viton seals	\$29.93	\$ 28.13

Your John Deere dealer can build hydraulic hoses in minutes.

John Deere hose assemblies
built to OEM specifications.
Ask your dealer about hoses for
any brand of equipment.

HOSES IN MINUTES

We follow through to deliver
uptime for you.

Stay up and running, and eliminate the worry
about contaminants entering your hydraulic
system. Trust your John Deere dealer to deliver
complete solutions, like Ultra Clean, that ensure
contaminants are completely removed from new
hose assemblies.

Ask your dealer how Ultra Clean means uptime.

Hose Drip Plugs

Prevent messes and environmental contamination from residual fluids leaking out
of hydraulic hoses and/or hydraulic ports during repairs. An essential component of
any well-stocked toolbox on the farm!

Hydraulic Multiplier and Add-On Valves

Add additional hydraulic outlets to prime movers economically. Hydraulic multipliers are transparent to the hydraulic system and work safely on all makes of equipment. They're easy to operate and provide a no-hassle solution to mobile equipment hydraulic shortages. These units are 100% final product-performance tested, and components are ISO-9002 certified.

STEER CLEAR OF ANNOYING ALLERGENS

NEW! ANTI-ALLERGEN CAB AIR FILTERS

○ PARTICLE FILTER LAYER

Protects against harmful PM2.5 pollutants*

○ PREMIUM ACTIVATED CARBON LAYER

Reduces unpleasant odors and harmful greenhouse gases

○ BIOFUNCTIONAL LAYER

Traps allergens and reduces potential for mold and bacteria growth on filter

*PM2.5 describes fine inhalable particles, with diameters that are generally 2.5 micrometers and smaller.
(Source: United States Environmental Protection Agency Website)

Avoid sneezing, runny nose and watery eyes with new Anti-Allergen Cab Air Filters from John Deere. Available for new and late-model **tractors, combines, sprayers** and **other machines**, our innovative product features three active layers to help keep allergens out and prevent the growth of mold and bacteria so you have fresher air all day long.

NOW AVAILABLE

**New Synthetic All-Season Engine Oil.
Ask your dealer about Plus-50™ II SAE 5W-40.**

Use only as directed. Please read safety and warning information. John Deere, the leaping deer symbol and John Deere's green and yellow trade dress are the trademarks of Deere and Company.

Plus-50™ II Premium Synthetic Engine Oil: SAE 0W-40 & SAE 5W-40

Plus-50 II Premium Engine Oil offers two synthetic engine oil options to provide support on every farm, for every season. Our SAE 0W-40 option is a full synthetic PAO (Poly Alpha Olefin) based oil. Performing at a premium level in all climates, Plus-50 II SAE 0W-40 is specifically developed for those operating in extremely cold conditions.

Our newer Plus-50 II SAE 5W-40 option is an all-season synthetic engine oil that provides excellent performance for customers who operate in extremely cold or hot conditions and want to maximize engine life performance in modern engines. SAE 5W-40 is also backwards compatible with our legacy machines as well.

Available For Order

0W-40: 1 qt. (946ml) | 1 gal. (3.78L) | 5 gal. (18.9L) | 55 gal. (208L) | 275 gal. (1040L) tote

5W-40: 1 gal. (3.78L) | 5 gal. (18.9L) | 55 gal. (208L)

Check with your dealer for part number and pricing information.

Plus-50™ II 10W-30 & SAE 15W-40

Plus-50 II 10W-30 and SAE 15W-40 are made made with a unique additive system that offers premium protection from deposits and wear. Exceeding API service classification CK-4/SN and high level performance under John Deere's Severe Off-Road Dyno test, this level of engine oil is excellent for diesel engines.

Available For Order

10W-30: 1 qt. (946ml) | 1 gal. (3.78L) | 5 gal. (18.9L) | 55 gal. (208L) | 275 gal. (1040L) tote

15W-40: 1 qt. (946ml) | 1 gal. (3.78L) | 2.5 gal. (9.46L) | 5 gal. (18.9L) | 30 gal. (113.6L) | 55 gal. (208L)

Check with your dealer for part number and pricing information.

Plus-50™ II Features & Benefits:

- Full fleet solution
- Compatible with both current, legacy and competitive machines
- Proven high-level performance in low-emission IT4 and FT4 engines
- Tested and developed for severe off-road applications
- Formula specifically created to stop engine wear, corrosion, sludge, soot, varnish and oxidation
- Drain interval extension up to 500 hours in a John Deere engine, using a John Deere filter.*

Bulk Oil. A New Opportunity

Is handling and storing your packaged oil a hassle? Are partially filled packages and boxes consuming your storage space?

If the answer is yes, it's time to consider bulk oil. With Plus-50™ II, Hy-Gard™ – or any other bulk premium John Deere lubricant available – you have the opportunity to nearly eliminate the headache of disorganized packaged products in your shop. Plus, you'll have more product inventory control, eliminate unnecessary waste and you'll reduce the risk of product contamination.

Make the Leap!

Contact your local dealer today about bulk oil availability.

Torq-Gard™

Looking for a hard-working, standard-interval engine oil? Torq-Gard is your choice! It protects in a broad range of applications, including 4-stroke diesel, natural gas, and gasoline engines.

Product Features & Benefits

- Neutralizes acid to reduce corrosion
- Sludge control for cleaner engines
- Low-temperature fluidity for reduced engine start-up wear
- Several viscosity grades offered for ease of application in moderate to very cold operating temperatures

Available For Order

SAE 30: 1 qt (946ml) | 1 gal (3.78L) | 5 gal (18.9L) | 55 gal (208L)

5W-30: 1 qt (946ml) | 1 gal (3.78L) | 2.5 gal (9.46L) | 5 gal (18.9L) | 30 gal (113.6L) | 55 gal (208L)

10W-30: 5 gal (18.9L) | 55 gal (208L)

15W-40: 1 qt (946ml) | 1 gal (3.78L) | 2.5 gal (9.46L) | 5 gal (18.9L) | 55 gal (208L)

Check with your dealer for part number information.

Turf-Gard™

Turf-Gard motor oil is recommended for all 4-cycle gasoline engines in lawn and garden tractors, riding mowers, generators, and other outdoor power equipment. Turf-Gard keeps engines clean and provides superior engine wear protection and fuel efficiency.

Break-In™ Plus Engine Oil

Break-In Plus is a special purpose engine oil developed for use in rebuilt/remanufactured and new John Deere engines during the initial break-in period/oil service interval. During the initial operation of a new or rebuilt engine using Break-In Plus, change the oil and filter between a minimum of 100 hours and a maximum of up to 500 hours. Check your operator manual for the maximum interval recommendation.

Product Features & Benefits vs Standard Break-In Oil:

- Meets oil requirements for Final Tier 4 (FT4) and interim Tier 4 (IT4) engines
- Supports all legacy engines
- Maximum drain interval up to 500 hours

STRONGBOX
ORIGINAL EQUIPMENT

 Return to John Deere dealer for recycling credit.

StrongBox Original Equipment Batteries – Tested to the Extreme, To handle the Extreme

In the field, the right battery can make a big difference—and the right battery for your John Deere equipment is StrongBox™. It's the best battery you can use in your machinery because it's developed and tested right alongside John Deere equipment. Our engineers test StrongBox™ Original Equipment batteries with the following benefits to give you a better battery:

- Increased power for quick starts in extreme cold
- High cranking amps, faster charges, and efficient design for lowering electrical resistance
- Epoxy-anchored plates that are four times stronger than traditional plates to reduce vibration damage—the leading cause of failure in commercial batteries

Don't risk it with standard batteries. Keep it in the field longer with batteries built for the rugged conditions you face. Power up with StrongBox™.

StrongBox™ Original Equipment

StrongBox™ Original Equipment batteries are factory tested to meet the demanding machine specifications of your John Deere Equipment; Heavy- and light-duty farm, ranch, construction, utility, and lawn and garden.

*Heavy-Duty Mini Speakers (shown) sold separately.

Designed to be one of the most rugged stereos in the industry, this heavy-duty radio delivers high-quality audio while withstanding some of the harshest working conditions.

A AM/FM/WB/iPod®/iPhone®/ SiriusXM™ Heavy-Duty Radio

SWJHD1630

\$263.09 **\$244.67**

Boldly go where no radio has gone before.

The weatherproof Jensen SWJHD906BT radio brings news, weather, and Bluetooth® capabilities to Gators, Skid Steers, and Open-Station Tractors. You get NOAA Weatherband with weather alert, AM/FM radio, Bluetooth playback, controls, and the ability for hands-free calling (external microphone SWJMICHFP sold separately), and an input to play iPod, MP3 player, or portable CD player.

B Mini 906BT Radio

SWJHD906BT

*Heavy-Duty Mini Speakers (SWJXHD35) sold separately.

\$346.09 **\$321.86**

The SWJHD1365BT stereo is built tough for demanding environments while featuring the latest technological advancements. This radio features Bluetooth streaming audio (microphone included) with hands-free calling, giving you a truly hands-free experience. The iPod/iPhone capabilities can be taken advantage of via the USB so you can take your personal music library with you. Plus, the stereo is also SiriusXM-ready, offering you endless entertainment options.

C AM/FM/WB/iPod- & iPhone-ready/SiriusXM/ Bluetooth Stereo

SWJHD1635BT

\$318.15 **\$295.88**

We made the cab quiet. Now give your ears something to listen to.

If your cab radio is dead, dying, or just plain dysfunctional, consider an audio upgrade. Tune in to local news, weather, and sports, or bring your own audio stimulation via CD or MP3. Satellite news and music are also an option.

Pull in AM/FM and weather-band signals. This new heavy-duty radio has a full 7-channel NOAA Weatherband tuner and tells the time with the new segmented high-visibility display. It also comes with front Aux in capabilities and is equipped with a two-wire hookup that prevents battery drain when the vehicle is off.

D AM/FM/WB Heavy-Duty Radio

SWJHD1130

\$181.67 **\$168.95**

In today's modern heavy-duty market, having a radio built to survive the tough stuff doesn't mean that it has to sacrifice in-demand entertainment options. The SWJHD36MIC features the ability to receive Bluetooth streaming audio and phone calls from a Bluetooth-enabled mobile phone, giving you a truly hands-free experience. The microphone required for hands-free calling comes standard with the radio. This state-of-the-art heavy-duty stereo also has NOAA 7-channel Weatherband tuner with S.A.M.E technology to focus on a more specific region, giving you more accurate weather updates along with being iPod- and SiriusXM radio-ready.

E AM/FM/WB/CD/USB/Bluetooth®/iPhone/ iPod/SiriusXM Stereo

SWJHD36AMIC

\$370.37 **\$344.44**

ToughCam Digital Wireless Observation System

It's not X-ray vision—but it's the next best thing.

This one-camera digital observation system far exceeds the performance of any other analog system on the market. It features a WiSight signal so strong that it easily transmits through and around objects up to 60 feet away—with no interference.

Other benefits:

- Delivers a sharp, vivid picture with the 5.6-in. color LCD monitor
- Suction cup mount and 12-volt DC power plug for the monitor make this system easily portable among vehicles
- Wireless for easy and convenient setup

Applications:

- Tractors and round balers
- Sprayers
- Trucks and trailers
- Recreational vehicles
- Industrial
- Marine

Nozzle Body Turret O-Ring Lubricant

Over time the o-rings between the turret and nozzle body get dusty, which makes rotating the nozzle body difficult when changing between nozzles. Parker Super O-lube is the John Deere preferred product for lubricating o-rings on sprayers with our new ExactApply™ nozzle bodies, as well as those on older machines.

Features/Benefits:

- High-viscosity silicone oil that can be used with virtually any rubber polymer over temperatures ranging from -65°F to 400°F (-54°C to 204°C)
- Will not clog 30-micron filters
- Recommended for high pressure systems

NUMBER	DESCRIPTION	LIST

SPECIAL BUYS

John Deere Self-Sharpening Blade

Mower blades have a significant impact on the cut quality and are a component that requires regular maintenance to keep the blades sharp. The John Deere self-sharpening blade is a patented technology that applies a layer of extremely hard material on the bottom side cutting edge of the mower blade. This solution addresses the customer pain point by reducing the need to sharpen blades saving time and labor. Fits 60-in. mower decks.

NUMBER	DESCRIPTION	LIST	NOW
UC15158	Self-Sharpening Blade	\$35.00 per blade	\$32.20 per blade

Protect your most valuable assets with John Deere paint.

You already know farm machinery is your largest investment. So get the most out of it today—and for seasons to come—by protecting it with the best paint in the business.

Only genuine John Deere paint gives you the long-lasting, high-gloss finish that better shields your equipment from UV fading, rust, and corrosion. Or whatever else Mother Nature may throw at you.

Pick up a can now at your local John Deere dealer. Better yet... make it two cans.

Only from your John Deere dealer.

SOFT BLACK COATING

Keep your tillage equipment corrosion-free throughout the dormant season with Soft Black protectant from John Deere. Our non-clog formula applies easier and lasts longer—until it's time to get back into the soil.

NEW Hand Tools

Two new 3/8-inch twelve-point deep socket sets to complement the 3/8-inch twelve-point regular socket set lineup. SAE and Metric.

One new 1/2-inch six-point socket set to complement the other 1/2-inch socket sets already in the lineup.

A new dial tire gauge with 12-inch flexible extension hose and dual foot chuck. Great for easier access to hard to reach areas.

A new 12-inch long three-piece screwdriver set to add to the screwdrivers already in the line-up. These new screwdrivers have 12-inch long shafts that allow for extended reach for those hard to access fasteners.

Two new leather tool holsters with straps to help keep your tools secure in the holster. All leather holsters feature a 90-day warranty.
